Introduction

The Global Alliance for Vitamin A (GAVA) is conducting an internal assessment to determine how partner organizations view it. Please take a few minutes to respond to the following 6 questions. All responses are anonymous. Please familiarize yourself with GAVA's mission statement and objectives below before responding to the questions.

GAVA's Mission

GAVA works to accelerate progress towards child survival and to reduce the global impact of vitamin A deficiency. It aims to provide a forum for achieving consensus on research priorities, policies and program approaches forcusing on the role of vitmain A supplementation (VAS) for pre-school children.

GAVA's primary goals are to:

- Catalyze consensus for evidence-based VAS policies and programs within broader child mortality and vitamin A deficiency reduction and control strategies
- · Identify and address priority knowledge gaps for VAS programs
- · Provide program support to improve effective implementation and monitoring of VAS programs
- Advocate for political will and sustained attention, as well as for financial and technical support for VAS in the context of the broader global nutrition landscape.
- 1. Overall, how would you rate how well GAVA accomplishes its mission in your organization or region/country?
